Software Engineer

[LinkedIn](#)
[GitHub](#)

I am a front-end developer proficient in React, CSS3, and HTML5. With over two years of experience in web development, I acquired skills in technologies such as JavaScript, React, and CSS skills. I also have a strong background in audio engineering and the entertainment industry, where I have performed a series of freelance engineering work across the front range.

Skills

Front End Development: React, JavaScript(ES6 & JSX), CSS3, HTML5, Bootstrap.

Back End Development: Node.js, Express, Mocha & Chai.

Additional Skills: Git, Github, NPM, RESTful APIs, Heroku, Vercel.

Projects

Pomodoro Timer | [Project Link](#)

- Built with React, Node.js, and Bootstrap.
- Created as an active timer integrated through component rendering and break time intervals.
- Designed Bootstrap integration and front-end button design.

Flashcards | [Project Link](#)

- Built with React, Node.js, and Bootstrap.
- Developed as an active study guide with form elements and API data integration.
- Integrated as a series of rendered components and route hooks.

Kinesis Nav Project [Project Link](#)
